

11th International Conference on the European Energy Market

28-30 May 2014, Krakow, Poland

www.eem14.com

facebook.com/11th.eem14

The Conference

prof. Władysław Mielczarski,
Conference Chairman

The European Energy Market is an international conference, an important event for academics and professionals of the European energy sector. It is an excellent opportunity to

review relevant experience of the European market operation, to get off the ground new solutions and map out new effective strategies for energy policy-makers. For eleven years the Conference has been successfully gathering renowned researchers, senior engineers, top economists and representatives of European regulators. It has been facilitating in-depth discussion of key topics and concepts, providing guidance by keynote speakers.

Born in Poland, after five years of gaining international recognition, the Conference comes back home. The European Energy Market 2014 (EEM14) conference will be held in Kraków, Poland on 28th - 30th May 2014. The conference will be organized by the Institute of Electrical Power Engineering, Lodz University of Technology and led by prof. Władysław Mielczarski, who 20 years ago paved the way for the energy sector liberalization in Poland and who still shapes market trends in the Central East Europe.

Conference topics

- Electricity Market Design, Regulation and Monitoring,
- Technical Aspects of Electricity Market Operation,
- Operation, Modelling, Forecasting and Simulation of Commodity, Technical and Financial Markets,
- Implementation of the European

Energy and Climate Policy.

- Infrastructure Development and Asset Management,
- Presence and the Future of Gas and Coal Markets.

Conference venue

The conference will take a place at the International Cultural Centre (ICC) in Krakow, the most charming city in Poland. The centre is situated directly at the historical Old Market, the most unique and lively place of the city.

Krakow

A city forged in battle, war, conquest and fate, Krakow is in many respects the most Polish of all this great nation's cities. The ancient seat of kings and intelligentsia comes steeped in legend and myth, and evokes the most fanciful of images, from Tartar hordes repelled at the gates, to an earnest Vladimir Lenin plotting revolution while sitting in the city's cafes. Krakow's history is the stuff of fantasy. Back to the future, the budget flight boom confirms this nation's transition from a country people are queuing to leave, to a country people are queuing to enter - the crowds that rotate around Wawel and fall out of the Irish pubs later on are all the evidence you need. Whether your pleasures lie in exploring museums, or partying to dawn, Kraków caters for every whim.

Technical Program

The technical programme of the conference involves the following activities:

- Presentation of accepted papers
- Invited presentations by keynote speakers
- Special panel sessions
- Official conference dinner with best paper award ceremony.

The programme available from the conference website www.eem14.com will be continuously updated.

Information for Authors

The authors of accepted abstracts are invited to submit full papers until 28th February 2014. All papers will go through a two-step blind review process - peer reviewed by the International Scientific Committee and additional reviewers. Contributions submitted to EEM14 must be presented either as oral presentations or as poster presentations. The working language of the conference is English, which will be used for all printed and electronic materials, during presentations and discussions. Please note that all papers that will be accepted and presented at the Conference will be included in the IEEE Xplore database and published in the IEEE Conference Proceedings. Submission will be judged by their originality, significance, interest, clarity relevance and correctness. All papers must be electronically submitted and must be in Adobe PDF format. Additional editing resources may be found at the

Important Dates

- Call for Papers:**
31th October 2013
- New Abstract Submission:**
27th January 2014
- Abstract Notification:**
3rd February 2014
- Full Paper Submission:**
10th March 2014
- Final Notification:**
14st April 2014
- Early Registration Deadline:**
28th April 2014
- Conference:**
28-30 May 2014 Krakow, Poland

PES Author's Kit, under the heading "To prepare and submit a Technical Work for a PES Conference". In addition, authors will be required to submit a filled IEEE Copyright form upon the full paper acceptance.

PHD Competition

The EEM14 organising committee would like to announce a competition for Ph.D. students. The first 3 best papers will be awarded.

Registration Fees

	before 28.04.2014	after 28.04.2014
Authors	1900zł (about 450€)	2350zł (about 550€)
Authors, PhD Students	1700zł (about 400€)	2100zł (about 500€)
Additional paper	650zł (about 150€)	900zł (about 200€)
Participants	2550zł (about 600€)	3000zł (about 700€)
Participants (IEE members)	2100zł (about 500€)	2650zł (about 600€)
Accompanying person	500zł (about 120€)	650zł (about 150€)
